

About QuadPackaging

We understand that packaging represents a critical decision point for the consumer and your brand. QuadPackaging combines a unique mix of deep industry knowledge with the most advanced technology found today. Backed by one of the largest printers in the world, QuadPackaging is committed to delivering your brand in its finest form.

PRODUCTS

We offer a wide range of products:

- Folding cartons
- Labels
- Tags
- Inserts

While these items make up the core of our business, we are continually branching out to offer more as a resource for cutting edge packaging.

CAPABILITIES

To meet your product specifications, QuadPackaging offers a full array of capabilities including:

- Graphic Design
- Structural Engineering
- Offset, Flexo, Digital Printing
- Die Cutting
- Gluing
- Windowing/Laminating
- Extensive Converting Options
- Inventory Management

GLOBAL BRAND MANAGEMENT

The cornerstone of QuadPackaging's global production model is that each facility conforms to shared quality standards and common manufacturing practices. Color calibration is controlled centrally via universal LAB standards and our facilities have earned many third party certifications. Each region is supported by a network of local representatives to make certain that every detail receives attention.

QUALITY CONTROL

QuadPackaging complies with many industry quality standards, such as:

- 5S
- ISO
- Lean Manufacturing
- AIB International
- cGMP
- SQF Certified

PEAK PERFORMANCE

Our experience and expertise affords unique design and highly responsive production capabilities, while retaining the consistency this market demands. We understand the unique requirements of your production lines and adhere to strict standards in our manufacturing process to ensure our packaging runs efficiently. Whether you need cartons, labels, or point-of-purchase displays, QuadPackaging offers an array of production options to fit your needs.

"Our international platform combines a high level of service, quality, and innovation you would expect from a small nimble organization but we couple that with the resources of one of the top printers in the western hemisphere."
